Undergraduate Researcher Summer 2021
University of Alberta, Department of Biology

- A self directed research-project. The purpose was to investigate whether or not the quality of published studies in 3 major medical education journals changed over the course of the COVID-19 pandemic. Data analysis was completed in R Language.

Teacher's Assistant 2020-21 Academic Term
The King's University, Department of Chemistry

- Independently running online labs for alternating groups of students who are not able to be in the physical lab.

Undergraduate Researcher Summer 2020
The King's University, Department of Biology

- From home, reading scientific papers, building biweekly summary reports and presenting findings to a professor (again biweekly).

Awarded USRA from NSERC for this work.

Undergraduate Researcher Summer 2019
The King's University, Department of Chemistry

- In the laboratory helping perform thermodynamic studies on synthetic rubber compounds.

Awarded USRA from NSERC for this work.

Sprinkler Installation Summer 2018
Capital Irrigation

- Digging holes, installing sprinklers.

COMMUNITY SERVICE

McKernan Baptist Church, 2024/25 Academic Term.
I volunteered as a youth leader with the grade 7 boys.

Rockridge Canyon, Summer 2023.

I interned at Rockridge Canyon in the Food Service department. This internship was oriented towards leadership skills and Christian discipleship.

Kelowna Gospel Mission, 2022/23 Academic Term.

I volunteered in the kitchen helping prepare and serve food to those individuals in the reintegration program.

The King's Running Club, 2019 - 2022.

I started a running club at The King's University with the goal of promoting fitness and community.

The King's Ambassadors, 2018 - 2022.

I volunteered with a group designed to represent the university and help with school-related events (ex. Harvest Banquet, Open House, etc.).

Mexico Missions Trip, Summer 2016.

I helped run a two-week bible camp for underprivileged kids. Role was that of games leader.
